

MINI PROJECT ABSTRACT

Title of the Project: CVR Developers Community

Abstract:

Students in the college have a diverse set of technical skills which are not utilized properly due to lack of networking and collaboration among students. The idea is to develop a network of college level student developers and faculty to showcase their skills, ideas and projects which will enable them to know each other and collaborate with each other for projects that may also be inter-departmental.

Notable features of the project will include:

- User profile/portfolio which will have basic information about the user, his/her skillset, academic details and details about projects done along with GitHub repositories/ Project links.
- A public news feed where the user can post technical queries, project requirements, ideas, suggestions, etc. with options of like, dislike and comment for other users.
- User Login and Authentication.

Team Details:

1. K. Tarun Bhargav – 17B81A12A5
2. V. Sahana Chowdary – 17B81A1265
3. J. Sai Surya Reddy – 17B81A1274

Project Guide:

Mr. A. Seetharam Nagesh
(*Sr. Asst. Professor*)
